Thorough and articulate

By politicalsciencephd

This book was purchased for an introductory political theory course that is meant to familiarize freshmen and

sophomores to the ideas and ideology that the discipline explores without going too much in depth. I think of it as "getting their feet wet." It was chosen on short notice because upon looking at its index, it covered the concepts required.

I have yet to get much feedback from students, but I find it thoroughly explores the typical thinkers/ideas pertinent to concepts like "justice" and "equality" in the 21st century. I wonder if it tries to cover too much ground within a typical 20 page chapter, but it gets the job done.

About what I expected

By Katie Wilson

It's a book, came as requested, nothing more, nothing less.

2 of 4 people found the following review helpful.

Okay textbook

By Edwin Sevilla

The book is really bland and boring. No real pictures and its all in black and white. It gets the point across but not my first choice for a college textbook
