Great booklet and linked spreadsheet, read it through first though before working on spreadsheet.

By Amazon Customer

Very good on doing on analysing an apartment of 5+ units. What caused me to give it 3 stars instead of 5 is the booklet description of the spreadsheet does not quite match the spreadsheet the booklet has a link for the reader to view. However I was able to follow the linked spreadsheet, but ended up with two spreadsheets. My recommendation is to read the entire booklet and download or recreate the spreadsheet and go through the booklet again.

I hope the author will change the booklet to match the spreadsheet as the spreadsheet is excellent.

J Scott does it again! A simplified and strait forward book on analyzing investment properties. This book lays everything on the table, yet gets straight to the point. I highly recommend J's books on flipping houses as well.
