Drawing from authentic ancient Egyptian texts, this carefully researched guide is the first to bring together temple rites, everyday worship and invocations in the language of the Gods themselves. Those seeking a closer relationship with the Gods of ancient Egypt can find everything they need for independent worship, including practical, step-by-step instructions on morning and evening prayers to the sun; - hymns in the ancient Egyptian language; - a self-dedication rite; - explanations and types of heka, or Egyptian magic, including actual spells; - special rituals for Egyptian holy days; - beginning an Egyptian Pagan group; - and much, much more. With revealing and insightful sections for both Kemetic Reconstructionist and Tameran Wiccan practice, Circle of the Sun: Rites and Celebrations for Egyptian Pagans and Kemetics brings together the words and spirit of ancient Egyptian religion for modern worship.

love it!

Love love love this book. I found it more helpful than Sharon's other book Following the sun which still a good book but more steeped in history and limited info on rituals. This book has way more info regarding Egyptian worship.
