Hello!

The newest update requires an OS of 4.1.2 or higher. If you are unable to upgrade your operating system, the only option to continue playing would be to upgrade your device or play via Facebook on PC.

If you have your game linked to a Facebook account, you will be able to to continue your progress on another device without difficulty. If you are playing as a Guest, what we can do is transfer your current game to the new device. For that, we would need the support key.

Please note that the Fire OS is not the same as the Android OS. For example Fire OS 8.5.1 and Fire OS 7.5.1 are the equivalent to Android OS 4.0, which is not compatible, unfortunately.

We understand that this is aggravating and apologize for any inconveniences this causes. Let me know if you need further assistance.

Thank you!
