Bravo Mr Cleland

By Tania

I have to say first up, I was quite astonished John Cleland is not a pseudonym and the book is actually written by a man! Fanny Hill has a great pace and is never vulgar but still explicit.

I was dismayed to find out all the hardships John went through as a result of writing this book and the fact he made little money from it as he is a great writer. Unfortunately his talent was not appreciated until long after his death.

Now, about this particular Kindle version. There are a few typos but nothing too distracting. Overall, it's a quality conversion. If you are thinking of buying this version because it's illustrated, don't bother. The pictures were tiny.
