PRACTICAL PSYCHOMANCY AND CRYSTAL GAZING BY WILLIAM WALKER ATKINSON PDF

The term "Psychomancy" (pronounced, "sy-ko-man-see"), is derived from two Greek words, the first "psycho," meaning "the soul; the mind; the understanding" (and generally used to indicate "psychic" or unusual powers of the soul or mind); the second word, "mancy" meaning "to divine; to foresee, or foreknow; to detect secret things,"—and in occult parlance, "to sense," or "to receive impressions by the Astral Senses." So the word, as we use it, may be said to mean "Psychic Sensing," and in this work will be so used. The word "Psychomancer" means "one practicing Psychomancy;" and the word "Psychomantic" means "relating to Psychomancy." The word "Clairvoyance" is frequently used by people to designate some of the phases of Psychomancy, but strictly speaking this term is incorrect when used in this sense, the true occult meaning of the word "Clairvoyance," being "transcendental vision, or the perception of beings on another plane of existence—the seeing of disembodied souls, elementals, etc." And so, in this work, we shall consider the true phenomena of Clairvoyance, as distinct from that of Psychomancy.

Don't scry for me

By Bernie

Decades ago, I took classes and hypnosis at the Fort Worth Institute of Hypnosis. One of the courses was on Crystallomancy. However, we did cover several other subjects that are in this book. We dealt with past lives, out of body experiences, etc.

I have a hard copy of this book in my library near my crystal ball mounted on a black velvet cloth. I still periodically dabble in scrying for the fun of it. You will find it easy to do and quite addictive.

For such a small book, this is packed with a lot of great information, some of the practical some of that informative but all of it useful especially if you are watching movies that tout any kind of psychic phenomena or capabilities. It is divided into easy to read chapters dedicated to the different skills and clarifies terminologies.

If you find yourself reading books by Sax Rohmer, Alice Hoffman, or the like, you will want to read this book first. It is even useful for such movies as "Vibes" (1988) with Cyndi Lauper.

I also keep an electronic version to refer to when I am on the go.

Awaken your Sixth Sense!

By An Avid Reader

An interesting little tome on the art of learning psychic abilities - most fascinating to me was the chapter on crystal gazing, which I always found a little hokey (maybe I've just seen too many gypsies doing it on bad Hollywood movies), but the science behind it is really quite interesting. A fun little book to have and to read.

Not the one I was looking for.

By Jeffery

This isnt the out-of print version of the 1960's copy I am currently looking for. Dont get me wrong, for those entering as self-initiates, new-agers, novices.....couldnt start with a better book. I am just a lil bit more experienced and want to delve into a little deeper water. Otherwise, great book, glad I purchased for my library.
