SHELL SHOCK IN FRANCE, 1914-1918: BASED ON A WAR DIARY BY CHARLES S. MYERS PDF

First published in 1940, this book was written by Charles S. Myers, who was Consulting Psychologist to the British Armies in France and the First World War. Based on a war diary, it explains the work he did in France and England for shell shock and shell concussion cases, and, as he writes, may well serve 'to re-enlighten the general public as to the nature of shell shock, and to convince them how dependent it is on previous history and inherited predisposition, on inadequate examination and selection of soldiers for the front line, on lack of proper discipline and esprit de corps; and how necessary it may be to adopt apparently harsh measures in order to diminish the undoubted contagiousness of the complaint.'

A must read

By philippamyers

Superb early research from one of the first researchers on shell shock during the First World War in France. Fascinating distinctions made between historical day to day trauma and one off trauma. A must read for those interested in PTSD. First published in 1940 and republished in 2011.
