Not working correctly.

By Jessica Bellon

I am absolutely livid that this product is not working properly due to an "engineering problem" that cannot be fixed at the moment. I am trying to do an assignment that is due tonight and am not being helped at all by the staff I spoke with. When I asked for a manager I was told there is no one else that works there. I asked for a copy of the chapter I need to be sent in an email to me and they said they are unable to do so. I will never purchase an e-book again, and am highly disappointed in the customer service of this company. E-

books are suppose to be the same as paperback books -- clearly this is not the case. My advice -- spend the extra \$15 for the paperback copy of this textbook and save yourself the hassle.

No color

By marisela Zuniga

In the description this textbook says it is loose leaf which I was okay with but what the description doesn't tell you is that the textbook is in black and white. Only the cover is in color but everything else has no color which is ridiculous for the price you are paying, I ended up returning the textbook and just buying a used one instead

Not worth the headache

By Roxane Hartley

This product is horrible. I had a paper due tonight where I needed to cite references from the text and Pearson's website has been down for over two days. I have used different computers and wifi networks. The product also took longer than promised to arrive. Save yourself the stress and order a print version.
