'This new companion by a formidable array of early modern historians will breathe new and exciting life into the understanding of this crucial era, disrupting the tendency to impose easy uniformity on the massively complex tapestry of the Reformation narrative. No mere compilation of diverse essays, the work constitutes a highly original drama of intellectual ideas. The editors have orchestrated a remarkable unity out of a pluralism of interwoven perspectives, each fascinating in its own right and yet contributing to the integrity of the whole. The story this book tells is of an era rich in local diversity, exceptions, paradoxes, seminal influences and telling narratives. Highly readable, remarkable in its range of scholarship, this study is set to become an essential text for the early modern period.' John Cornwell, Cambridge University, UK
