“If a man has accused another of laying a kišpu (spell) upon him, but has not proved it, the accused shall go to the sacred river, he shall plunge into the sacred river, and if the sacred river shall conquer him, he that accused him shall take possession of his house. If the sacred river shall show his innocence and he is saved, his accuser shall be put to death. He that plunged into the sacred river shall appropriate the house of him that accused him.” – The Code of Hammurabi

The Babylonians were one of the earliest of history’s great ancient civilizations, and the most famous Babylonian of them all was Hammurabi, who came to the throne as the first king of the Babylonian empire around the beginning of the 18th century B.C. Hammurabi had a long and fruitful reign that saw him consolidate most of Mesopotamia under his control, but he’s best known today for Hammurabi’s Code, one of the earliest known code of laws in human history. Inscribed on stone tablets, Hammurabi’s Code was found over 3,500 years later in the early 20th century, making him one of antiquity’s most famous men.

Babylonian culture, including art, architecture and literature, flourished during his reign, and Hammurabi (or the scribes in his employ) wrote enough public royal inscriptions and personal official letters to store in museums across the world. There are also many letters from other contemporary rulers that make reference to him or to significant events during his reign. The large amount of documentation available, both from and about him, has allowed modern scholars to paint a colorful picture of the famous king and the various facets of his life.

Alongside Hammurabi, Nebuchadnezzar II is remembered as one of Ancient Babylon’s most influential kings. Nearly 1,000 years after his famous predecessor, Nebuchadnezzar oversaw the expansion of the Neo-Babylonian Empire during the 7th and 6th centuries B.C., which placed him in conflict with Egypt and the ancient kingdom of Judah. His ruthless conquest of Judah resulted in the destruction of Jerusalem and the entire kingdom, and it ultimately earned him notoriety in the Old Testament, where he is mentioned in the books of Jeremiah, Ezekiel and Daniel.

In addition to being depicted in the Bible, Nebuchadnezzar was well known among ancient historians and contemporary writers because of the Hanging Gardens of Babylon, one of the ancient wonders of the world. According to ancient accounts, Nebuchadnezzar constructed the Hanging Gardens for his homesick wife by creating terraced and cultivated orchards that were built over a series of buildings made of glazed ceramic. An estimated several thousands of gallons of water was drawn from a reservoir through a network of reeds and bricks, held together by asphalt and cement, with lead used as a sealant. The Gardens were built on a citadel 80 feet high with walls 22 feet thick. To this day, Nebuchadnezzar is associated with the Hanging Gardens, even as scholars continue to question whether the Hanging Gardens were actually built in Babylon or even existed at all.

The *Legendary Kings of Babylon* chronicles the lives, legends, and legacies of the famous Babylonian kings. Along with pictures depicting important people and places, you will learn about Hammurabi and

Nebuchadnezzar like you never have before.
