With the movement sweeping the United States, the stakes are higher than ever as President Drummond continues to prove his dedication to the destruction of the Bionics and all who stand with them.

The flame has been ignited...

As anger and frustration among the American people reaches the boiling point, citizens begin to fight back, many showing their support for the Bionics... despite the personal costs to themselves. As protests turn violent, and people who once cowered in silence begin to fight back, the government continues its practices that fly in the face of the very principles the nation was founded upon.

The time has come to revolt ...

Despite the many losses it has sustained, the Resistance stands strong, leading America into revolution and onward toward change. With an unlikely, ragtag family of misfits at its forefront, the Resistance stands, while a girl who lost everything continues to fight for a future that was once impossible, but may now be within her reach.

THE RESISTANCE

Book 2 started off with a bang and continued with its momentum. Gage' s father ego knows no bounds. He'll sell out his own children if it means the pursuit of his own power. He is willing to let his own granddaughter to be killed. And he only let Gage live because he saw him as tool to use in his master plan. Spoiler alert, let's not forget he even sanction the the hit on his lover's family.

Furthermore I still keep keep wondering if Dax and Blythe will ever hook up. How will Blythe react to Gage not being dead? And I want to see more on the relationship of Janika and the Professor. Will the public ever find out about the government involvement with the Rejects. And can modern society ever reconsil robotic human with normal humans; even within families? This book is full of questions. I am eagerly waiting on book 3.
