This book was simply amazing! T.L Joy has definitely brought another great page turner into my life!

This book gives you a better insight on how life was for Smooth before the Hot Boys, I love the fact that this book gives realistic situations for those who lived this type of life style! Not sure why people would think it's not realistic sine there is some many young kids today doing this and worst! But anyhoo..... Love this book an author they both deserve more the 5 stars, wish I could give you 10 stars! I can't wait to read more from you!!!!!!!!!!!!!!!!!!!!

#Good short story.

By McKeon Webster

I liked this story from start to well, there was no end. In order to find out what happened to the characters you have to get the next book. The author tells a good story. Mr. Joy could have closed out this book's storyline and teased his reading audience with another by including the first chapter of his next book. The story here is just that good and has the makings of a series. I will watch for more from this talented author.

Great prelude to start off with.

By dionne days

This intro has me reeled in now. It was short and straight to the point. Now I'm ready to journey into to

Smooths life. I always considered purchasing the Hot Boz series but now, there is nothing to consider. It's a done deal. I just hope I stay interested cause if it's good like this, I'm purchasing the whole series. Great read.
