THINKING THROUGH COMMUNICATION (6TH EDITION)

BY SARAH TRENHOLM PDF

Praised for its “teachability,” *Thinking Through Communication* provides an excellent, balanced introduction to basic theories and principles of communication, making sense of a complex field through a variety of approaches.

In an organized and coherent manner, *Thinking Through Communication* covers a full range of topics—from the history of communication study to the methods used by current communication scholars to understand human interaction. The book explores face-to-face communication in a variety of traditional contexts: interpersonal, group, organizational, public, intercultural, computer-mediated communication and the mass media

Written in a clear, lively style, Trenholm's overall approach—including her use of examples and interesting illustrations—helps develop a better understanding of communication as a field of study and an appreciation for ways in which communication impacts our daily lives.

This is a great introductory text!

By A Customer

Sara Trenholm is a gifted writer. This is another in a series of well prepared communication texts by this author.

The healthy balance between theory and practical advice makes it both challenging and yet easy to digest. I have used this text as a resource since it first crossed my desk in its first edition.

My only criticism of this book is that it is not visually appealing. However, the person who wants information will find it to be highly practical and usable.

2 of 2 people found the following review helpful.

Great book.

By Kimberly S.

This book is very thorough but EASY to understand. Recommend it to anyone who needs an intro book to communication.

0 of 0 people found the following review helpful.

What I expected!

By Wendelyn A. Ben-Ezra

I chose this rating because I knew I was buying a used book yet, like it was stated, there would be minimal writing in it--true to your word! I anticipated it being in worse condition and was pleased with the great condition it is in. Also, it came in time for my University course! I have already highly recommended Amazon to many other students who are buying textbooks. It saves money and I am impressed!. I recommend this book to anyone interested in an introductory book on communication as well as the obvious--a required reading.
